

TWONEMBERS PLACED ON COURT

Majors Bowles and Martin Will Help to Investigate Coast Artillery.

DR. LLOYD GOES TO CATAWBA

Young Physician Comes Back to Virginia—Army Inspecting Officer Named.

Two changes were made yesterday by Adjutant-General W. W. Sale in the personnel of the court of inquiry which will begin on February 1 to investigate the troubles of the coast artillery of this State. Lieutenant-Colonel R. E. Craighill, of Lynchburg, found that he would not be able to attend because of the fact that he has already consumed his furlough time in the government's employ. Major T. M. Wortham, of Lynchburg, was debarred from attendance because of business engagements.

Major Stanley W. Martin, of Lynchburg, and Major Edgar W. Bowles, of the Richmond Light Infantry Blues, were thereupon detailed to act upon the court. They will hold their sessions in Norfolk. The other member is Major Clinton L. Wright, of Norfolk, while Captain I. Branch Johnson, of the Norfolk Light Artillery Blues, will act as recorder.

DR. LLOYD NAMED

Comes From Connecticut to Be Assistant Physician at Catawba. State Health Commissioner Ennion G. Williams yesterday announced the appointment of Dr. John J. Lloyd, Jr., to be assistant resident physician at the Catawba Sanatorium. Dr. Lloyd succeeds Dr. W. E. Jennings, who, as stated in The Times-Dispatch yesterday,

Dr. Lyon's TOOTH POWDER

cleanses, preserves and beautifies the teeth, prevents tooth decay and imparts purity and fragrance to the breath.

day, had been appointed to succeed Dr. W. D. Tewksbury, who has resigned.

Dr. Lloyd has been for some time a physician at the Gaylord Sanatorium, in Connecticut. He is a son of Rev. John J. Lloyd, of Big Stone Gap, archdeacon of Southwest Virginia, and a nephew of Bishop Arthur Selden Lloyd.

INSPECTOR NAMED

Captain Thorne, of United States Army, Will Pay Official Visit.

By order from General Frederick Dent Grant, commander of the Department of the East, Captain George E. Thorne, of the Twenty-fourth Infantry, has been designated as the officer of the regular army to inspect the principal offices of the Virginia militia. Captain Thorne will be in Richmond on February 15, when he will inspect the Adjutant-General's office, the State arsenal, the storerooms and the Assistant Inspector-General's office.

On the next day he will be in Norfolk, where he will pay an official visit to the headquarters of the First Brigade, which are in charge of Major C. L. Wright, adjutant-general of the brigade.

BUNCH OF F. F. V.'S STRIKE NEW YORK

They Are After Conventions, and They Tell the Metropolis All About Richmond.

(Special to The Times-Dispatch.) New York, January 26.—A bunch of F. F. V.'s from Richmond struck town to-day and got busy at once. They are after conventions, particularly those of the American League and the American Street Railway Association, and if they don't get them, it must be because of the presence of another Richmond in the field. But that there could be another Richmond would not be admitted by Colonel W. T. Dabney, business manager of the Richmond Chamber of Commerce, or Major J. Preston Carson, also of the Chamber of Commerce, or Major Morgan R. Mills, who is a city Councilman. Colonel Barton H. Grundy, who came up at the same time on general principles and private business, if of like mind.

"We have found that conventions bring trade to the city," said Colonel Dabney to-day. "That is why we aim to get those of all the big organizations. Our hotel facilities are improved by those of any city anywhere near our size, and in historical features we are second to no city in the country."

"Then our climate and our accessibility are strong points," added Major Mills. "We are within twenty-four hours' ride of 75 per cent. of the urban population of the United States."

"Convention," supplemented Major Carson, "are means of bringing industries to the city. Business men get to Richmond and view our wonderful waterpower and transit facilities, and put up plants there."

"Everything is new in Richmond," voiced Colonel Dabney. "We don't allow anything to get old except our historical features. Richmond is the leading and most enterprising city of the South."

"The bank clearances of Richmond," it was Major Carson who took up the reign, "are equal to those of Atlanta, Memphis and Norfolk combined. Our population increased 50 per cent. in the last ten years."

Colonel Dabney added that if anybody wanted to know anything else about Richmond, he would be glad to send some literature on the subject.

MRS. HENEY DEAD

Wife of Graft Prosecutor Dies in New York.

New York, January 26.—Mrs. Francis J. Heney, wife of San Francisco, whose husband gained fame as a fighting prosecuting attorney, died to-night of tubercular meningitis at the New York residence of Charles F. Crane. She had been ill about ten days.

Mr. and Mrs. Heney came here on January 8, to attend the dinner of the Periodical Publishers' Association, and were the guests of Mr. and Mrs. Crane. Shortly afterwards, Mrs. Heney fell ill, and her death since has been unchanged. The body will be taken to San Francisco to-morrow, but no plans for the burial were given out to-night.

Mrs. Heney was fifty years old, and was Rebecca McMullin, a daughter of John McMullin, a pioneer Texan. He figured in the Texas Revolution, and before the gold rush to California emigrated to that State. McMullin died when the daughter was a child, and she was educated with her mother's relatives in Kentucky. Returning to California, she met Mr. Heney in 1906, and married him in the midst of the graft prosecution.

Cotton Mill Directors Meet.

Danville, Va., January 26.—The annual meeting of the stockholders of the Riverside and Dan River Cotton Mills was held this afternoon at Schoolfield. The reports submitted showed the mills to be in a prosperous condition. No suspension of operations occurred here, and the dividend declared on the stock was even better than usual. All the directors were re-elected. The officers of the mills are: R. A. Schoolfield, president; J. H. Schoolfield, vice-president, and H. A. Fitzgerald, secretary and treasurer.

Leaves Boynton Church.

(Special to The Times-Dispatch.) Boynton, Va., January 26.—Rev. Beverly D. Tucker, son of Bishop Tucker, left here this week for Shreveport, La., on a visit to relatives in that city. Mr. Tucker has resigned the rectorship of St. James Episcopal Church, at this place, and preached his farewell sermon last Sunday. He has accepted a call to an Episcopal Church at the University of Virginia, and on his return will take charge of that church.

Anderson-Haynes.

(Special to The Times-Dispatch.) Danville, Va., January 26.—Miss Alma L. Haynes and L. C. Anderson were married here this afternoon at the home of the bride's parents, on Worsham Street, Rev. G. C. Smith, pastor of Moffett Memorial Baptist Church, officiating. The wedding was celebrated in the presence of only a few intimate friends of the young couple. They will reside at Faxon.

DEADLY PLAGUE IN NORTH CHINA

On Account of Disease Railway Traffic Practically Is Suspended.

MANY ARE LEAVING PEKING

Arrangements Are Made to Quarantine All Foreign Legations.

Peking, January 26.—Owing to the prevalence of the plague, railway traffic in North China has ceased practically excepting from Tien-Tsin to Peking and between this city and Hankow. A special train will bring down a dozen trans-Siberian passengers, now quarantined at Shan-Hai-Kwan, which will end the service on the Chinese line above Tien-Tsin for the present. The Japanese roads are conveying no Chinese and only medically certified foreigners.

The service on the German line from Tien-Tsin to Peking has been suspended, and the prospect that further suspensions will be announced is causing many foreigners in Peking to arrange for a hasty departure from the city.

Those leaving include Louis Einstein, secretary of the American legation, and other diplomats and their wives.

A modified plan for the general quarantine of the legation quarter has been agreed upon and will become effective when the conditions in the city require it. All the legations have taken in a three months' supply of rations and fuel. Most of the Westerners, including the missionaries, are sending their scholars of the country home, but otherwise are continuing their duties.

American Minister W. J. Calhoun ordered the missionaries a refuge at the American legation, but this was declined by both the American and British workers, who did not wish to have their activities limited. Mr. Calhoun has received several cablegrams from relatives in the United States urging him to leave this city, but he intends to remain, realizing that while the disease is deadly, it is not contracted except by close infecting, which is practically impossible within the legation area.

The physicians believe that the germ will be exterminated with the approach of warm weather, but it is evident that it is of the type that flourishes in winter.

News is received of the death from the plague of another physician at Mukden. The victim was Dr. Jackson, Presbyterian missionary, aged twenty-six years. The fact of his death in spite of inoculation, has increased the anxiety of women here whose husbands have gone to the front.

Reports from Harbin state that the Chinese authorities have given the medical men permission to burn three sections of the Chinese city. The government is sending more troops to make the cordon about the affected districts more efficient.

Paris, January 26.—Dr. Yersin, who discovered the microbe of the Chinese plague, and Dr. Broquet, formerly assistant director of the Pasteur Institute at Saigon, both of whom are now in Paris, have been hastily ordered to China to fight the pest on behalf of France.

WHY FIGHT PLAGUE. Dr. Yersin, who discovered the microbe of the Chinese plague, and Dr. Broquet, formerly assistant director of the Pasteur Institute at Saigon, both of whom are now in Paris, have been hastily ordered to China to fight the pest on behalf of France.

Washington, January 26.—James M. Wood, Superintendent of Street Cleaning, was removed from office by the commissioners to-day.

J. W. Paxton, a civil engineer, of Norfolk, Va., was appointed in his place, and until Mr. Paxton arrives, February 1, the Street Cleaning Department will be directed by Assistant Superintendent Robert E. Doyle, who has been Mr. Wood's right-hand man for several years.

Mr. Paxton, who will succeed Mr. Wood, is now an officer of the Southern States Engineering and Equipment Company, of Norfolk. He has the warm endorsement of several Washington engineers. He has done some large engineering work recently. One of his most recent achievements is the constructing of three steel bridges across Albemarle Sound, the total cost \$56,000. He has been engaged in railroad engineering, and has also been connected with the building of a large gas plant in Norfolk. He is about forty years of age.

Morris-Jordan. (Special to The Times-Dispatch.) Clifton Forge, Va., January 26.—Miss Francis W. Jordan, daughter of J. O. Jordan, clerk of the Council, was married here to-day in the Episcopal Church to Dr. H. H. Morris, of Philadelphia. The ceremony was performed by Rev. J. P. Morris, of Philadelphia, a relative of the groom, assisted by Rev. Ivan M. Green. Shortly after the ceremony the bride and groom left in a special car for the home of the groom in Philadelphia.

and on Saturday they will sail for China, where Dr. Morris will prosecute his work as a medical missionary for the next five years.

NO AGREEMENT IN FELTNER CASE

Jury Locked Up for Night and Urged to Reach a Verdict.

(Special to The Times-Dispatch.) Winchester, Va., January 26.—The jury in the case of James Feltner, member of a well known Clarke county family, on trial in the Circuit Court at Berryville for shooting and killing Hugh Curtis at Boyce on the night of September 17 last, after considering the case for five hours came into court to-night unable to agree on a verdict. Judge T. W. Harrison, of Winchester, who is presiding, ordered the jury back, and told the members to use every possible means to reach a conclusion.

At a late hour no verdict had been rendered, and the jury was locked up for the night.

Large crowds of men and women flocked to the courthouse again to-day, and the room was crowded to suffocation.

The case was argued by A. G. Weaver and H. H. Downing, of Front Royal, and Commonwealth's Attorney William T. Lewis, of Clarke, for the State, and by Marshall McCormick, of Berryville, and Speaker Richard Evelyn Byrd, of the Virginia House of Delegates, for the defense.

Barn and Contents Destroyed. (Special to The Times-Dispatch.) Culpeper, Va., January 26.—The barn belonging to Miss Lizzie Major, near Lakoto, this county, was burned this morning. Six head of horses, four cows and all farming implements, together with feed and corn, were destroyed.

McKenny Is Again Appointed. (Special to The Times-Dispatch.) Cape Charles, Va., January 26.—Chas. A. McKenny's administration as postmaster is the most progressive in the history of Cape Charles. He was first named in 1899 by the late President McKinley, reappointed in 1903 and 1907 by ex-President Roosevelt and on January 17, 1911, President William H. Taft reappointed him for the fourth consecutive term. Under his administration the office has made rapid headway, a general rural free delivery service instituted, and the affairs of the office most successfully conducted.

Drops Dead After Drinking Coffee. (Special to The Times-Dispatch.) Clifton Forge, Va., January 26.—E. R. Smith, colored, of Craigsville, who came here last night to consult a physician concerning his health, was advised by the physician that he would have to cease drinking coffee. Later in the night Smith disregarded the

advice of the doctor, drank two cups of coffee, and in less than an hour he dropped dead.

Dies on Train. (Special to The Times-Dispatch.) Wakefield, Va., January 26.—Miss Laura Drew, aged forty-five years, died to-day on a Norfolk and Western train while en route from Petersburg to her home at Wakefield. Her physician and several relatives were with her when the end came.

Tylers FIRST AND BRAD STS.

THE COUNTRY BOY'S CREED.

I believe that the country which God made is more beautiful than the city which man made; that life out of doors and in touch with the earth is the natural life of man. I believe that work is work wherever we find it, but that work with nature is more inspiring than work with the most intricate machinery. I believe that the dignity of labor depends not on what you do, but on how you do it; that opportunity comes to a boy on the farm as often as to a boy in the city; that life is larger and freer and happier on the farm than in the town; that my success depends not upon my location, but upon myself; not upon my dreams, but upon what I actually do not upon luck, but upon pluck. I believe in working when you work and in playing when you play, and in giving and demanding a square deal in every act of life.
